
Cluster and Condo Association Directory

Introduction

Reston is home to over 200 sub- neighborhood associations, each of which regularly work with Reston Association staff to support member property owners. As it is often necessary to be in direct contact with both Reston Association staff and representatives of a particular sub-association, Covenants Staff has developed and maintains the following directory of public points of contact for each sub-association.

Users should note the following:

- Designated representatives of member cluster and condo associations should submit their association's data here: <https://www.surveymonkey.com/r/MPK8VBS>. As this Directory is only as good as the information provided to Covenants Staff, it is critical that data be updated whenever there is a change to sub-association board composition, contact information, and/or professional management representation; the above link may be used whenever there is a need to notify Covenants Staff of a change.
- Associations opting into the Directory are advised to take particular care in noting which information is the preferred means of contact so that Covenants Staff can ensure that current and public points of contact are included in each listing, and any other contact information provided to Covenants Staff is stored but not shared via the Directory.
- The Directory itself will be updated with any information received via the online collector (linked above) on a rolling basis, with the revision date prominently listed on each version of the posted document.
- Feedback and questions concerning the Directory may be directed to COV@reston.org; specific questions about your association's listing may be directed to your assigned [Covenants Advisor](#).

Thank you for participating in Reston's Cluster and Condo Association Directory!
